

BENJÁMIN OTT

Electrical Engineer & Software Developer | Electronics Development, Full-Stack, Python, Project Management

Budapest, Hungary | +36 30 211 1940 | bendzsiott1998@gmail.com | [LinkedIn](#)

Professional Summary

Electrical engineer and software developer with hands-on experience across electronics development, telecommunications, R&D, full-stack software delivery, and project-oriented technical work. I have worked on web and cloud-based solutions, research-driven engineering tasks, and roles that required both technical depth and coordination. In my current positions, I contribute in electronics development, electrical engineering, project management, and self-employed digital delivery.

Core Skills

Python • React • Vite • Tailwind CSS • Ant Design • C# • JavaScript • Microsoft SQL • Quartz • Azure Cloud • Azure DevOps • Git • Docker • Linux • CI/CD • TCP/IP • OpenVPN

Professional Experience

Electronics Development Engineer

HM Elektronikai, Logisztikai és Vagyonkezelő Zrt., Budapest | January 2026 – Present

- Currently working in an Electronics Development Engineer role in Budapest.
- Supporting engineering development tasks with an electrical engineering and systems-oriented approach.

Electrical Engineer & Project Manager

Voltrack, Budapest | July 2025 – Present

- Working in an Electrical Engineer & Project Manager role.
- Contributing to technical coordination and project execution support in engineering-oriented work.

Self-Employed / Independent Developer

Self-employed, Budapest | August 2024 – Present

- Delivering freelance software and digital development work.
- Building web-based and technical solutions aligned with business needs.

Software Developer

Rollin, Budapest | September 2023 – September 2025

- Contributed to web application development across both frontend and backend layers.
- Worked in React/Vite-based frontend environments using Ant Design and Tailwind.
- Supported backend and API-related development tasks using C#, Quartz, and Microsoft SQL.
- Worked in agile delivery processes using Azure DevOps and contributed to CI/CD-oriented workflows.

Researcher

Ericsson, Budapest | January 2023 – July 2025

- Contributed to software and hardware development related to quantum information and QKD systems.
- Performed Python-based development and experimentation in an R&D engineering environment.
- Used Git-based version control workflows and supported technically demanding engineering tasks.

Information Technology Teacher

Szári Romhányi György Primary School & Logischool Mátyásföld | September 2022 – June 2025

- Delivered project-based and gamified teaching sessions.
- Taught introductory Python programming, core programming concepts, and Microsoft 365 applications.
- Focused on practical delivery, clarity, and effective knowledge transfer.

Education

MSc in Electrical Engineering

Budapest University of Technology and Economics, Faculty of Electrical Engineering and Informatics | September 2023 – June 2025

TMIT–HIT Hybrid Specialization – Telecommunications Networks and Media Informatics Systems

BSc in Electrical Engineering

Budapest University of Technology and Economics, Faculty of Electrical Engineering and Informatics | 2019 – 2023
